

Nuclear Science Week Student Competition

“Think Clean. Think Solutions. Think Nuclear.”

October 18-22, 2021

Nuclear Science Week (NSW) is an international, broadly observed week-long celebration to focus local, regional, national, and international interest on all aspects of nuclear science. During the week, educators, students, employers, and the community participate in a national recognition of how nuclear science plays a vital role in the lives of Americans – and the world. Activities during the week are intended to build awareness of the contributions of the nuclear science industry and those who work in it every day.

Texas K-12 students are invited to create an original project on current or future impacts and applications of nuclear science and technology in our lives. Projects should promote discussion and increase awareness around nuclear science and technology in their local communities.

6-8 9-12	Video with required abstract <ul style="list-style-type: none"> Individual Division Team Division 	October 8, 2021 by 11:59pm	Winner: \$1,000 Runner-up: \$500 per category and per grade band

SUBMISSION CRITERIA

The selection criteria for the competition are:

- Each participant is required to include a TEES Media Release Form with their submission
- Projects should demonstrate an understanding of nuclear science and technology applications as it relates to their project
- Projects can combine theoretical and practical content in a creative way
- Content needs to be as scientifically accurate as possible
- The project should be originally created by identified individual(s) making the submission
- No copyrighted material (such as music, images or videos not created by students) can be used
- Drawings and comic strips are illustrated on a standard letter sized paper, 8.5” x 11”.
- Videos are a maximum of 3 minutes long with an abstract maximum of 300 words.
- Parents, guardians, and educators can be advisors only.
