

2019 - 2020 Select Services Program

The Select Services Program matches qualified providers from the Provider Network with CASE for Kids-supported sites to engage youth in hands-on, project-based activities in diverse content areas with a focus on literacy and numeracy integration, and Social-Emotional Learning (SEL) integration.

Select Service Providers complete an application and are chosen by CASE for Kids for the ability to deliver quality programming and provide reliable teaching staff at multiple afterschool sites throughout the year. Select Service Providers undergo numerous hours of training and professional development for numeracy/literacy integration. Learn more at www.afterschoolzone.org.
